

MOSS MIX - on flax backing, adhesive foil

Artikel Nr. MOSMIX0085FVPRW

Light and dark green moss from upcycling on breathable flax fleece or flax fleece with PVC-free adhesive foil.

A forest bath, please! This natural surface combines lush greenery with the moisture-regulating properties of real moss, creating a vibrant experience for the senses. Different moss varieties offer a harmonious interplay of texture and colour, bringing the freshness of the forest directly into your space. Treat yourself to a piece of nature that soothes and sustainably improves the indoor climate.

Order your DIN A5 sample now!

Upcycled light and dark green moss in full, premium coverage, available on Flax fleece and self-adhesive foil – making every application in interior design possible.

Characteristics

Raw material	Colourful mix of light and dark green moss
Scent	● ○ ○
Light fastness	● ● ○
Abrasion resistance	● ● ●
Vibrancy	● ● ●

Format	Rolled goods, width: 1,360 mm
MOQ	1 m ² (ca. 0.74 running metre)
Weight	600 g/m ²
Thickness	0,8 mm
Flexibility	Bending radii up to 0,5 mm, at least 5 cm flat surface
Translucency	opaque

Material details

Wallpapering technique	Do not apply glue to the back of the wallpaper, but to the surface. Please note our glue recommendations.
-------------------------------	--

Overlap and double-cut	Each panel overlaps approx. 2 cm with the one next to it. Please note the edge tolerance.
-------------------------------	---

Free match	Free match The naturally scattered materials do not require matching patterns between panels.
-------------------	--

Breathable	The natural flax fleece backing is breathable, unbleached, ecological and climate regulating.
-------------------	---

Processing

Wallpaper

Installation of Organoid® natural surfaces on flax fleece as a wallpaper:

- Wall-pasting technique
- Pay attention to Organoid glue recommendations
- Double cut: Each panel overlaps with the one next to it (approx. 2 cm)
- Cut with scissors, cutter or plotter
- Pre-trials recommended
- In the case of wallpapers, the effect is to be checked after processing three strips. Claims that go beyond the replacement of defective goods will not be accepted.

Processing

Décor

Installation of Organoid® natural surfaces on flax fleece in woodworking (décor):

- Process with normal wood-working machinery
- Glue (e.g. white glue) is applied onto the wooden materials, as the fleece absorbs moisture and glue stains may appear on the front if glue is applied to the fleece
- Cover the natural surface with the enclosed separating paper
- pressing temperature. 60°C
- For sensitive wood-working applications, use a counter-balance (enclosed on request)
- Cut with scissors, cutter or plotter
- Pre-trials recommended

Processing
